LEADERSHIP BOB & THE SALTY DOG SERIES

Journal mining- something I created in 2006 that I would like to share with you...

“Every day as leaders, we are sailing on the vacillating sea of change. We are asked to steer our boats and our crews into the unimaginable horizons of high growth. On those days when the wind stops blowing and your sails feel empty realize the only thing you can do is to adjust your attitude. The crew will look to the captain for direction and your role is to inspire hope and direction until the winds of good fortune can blow your way again. The business is expecting all of your collective boats to reach the shoreline of profitable growth. Sail well my friends and develop world class crews that will sail with you anywhere in all kinds of weather.”
